

## **Banana Slug**

Banana Slug (banananananana)

Banana Slug (banananananana)

Banana Slug (banananananana)

Banana Slug

You know I love my baby

I love the way that she hugs

Some people don't understand it

She's a Banana Slug

She's just got one foot

She ain't got no toes

She hangs out in the forest

And helps it decompose

Some folks say she's gross

Don't wanna hear that jive

If it weren't for my baby

The forest might not survive
